By Sydney Perez, Multi-Media Producer [CONNECT](#)

LORDSTOWN, Ohio - CruzeTalk.com Car Club was at the GM Lordstown Plant East Complex and at UAW Local 1112 Union Hall on Friday.

There was a caravan from the plant to the union hall at 11:00 a.m., where the Cruze's were on display in the union hall parking lot.

The popularity of the Chevy Cruze has grown internationally, with one-owner traveling over 30 hours from Ontario to be with other Cruze owners in the Valley on Friday.

The administrator on the CruzeTalk.com forums, Andrei Pop, told 21 News, "We have a lot of really passionate guys that really like their cars, it's a big age group. You'll see young people, old people- it's a pretty diverse group and they really like the community."

The group started the morning at the Ice House Inn in Austintown and headed straight to the GM Lordstown Plant for a tour. With the recent cutback of the second shift at Lordstown, the continued support from the group is something that UAW 1112 President Dave Green said he loves to see.

Green told 21 News, "These people are not only promoting our product but they like it. It's something that gives us a lot of energy. Cruze.com, we appreciate their support and our members are working hard every day to make sure we are building a quality car that our customers like. We have customers that love our product, it's a great feeling today."
